

Updated - Diamond East Midlands Bus Service Guide

Changes to Service 10 to John Taylor Free School

Diamond Bus have been working closely with John Taylor Free School to alleviate some issues of overcrowding and reliability on Service 10. The following changes will be implemented from 13th November.

There will now be two separate 10 services that will serve the school as follows:-

- A new Service 10S will be introduced departing Acorn Inn at 08:00. All students in possession of a Staffordshire County Council issued bus pass should board the new 10S services both during the AM and PM journeys. Single tickets will also be available for purchase on this service where necessary.
- The existing Route 10 will continue to operate as it does currently, with increased time for reliability. Passengers with a Diamond Bus ticket or pass should continue to board this service, Diamond Bus Standard ticket range options will also be available to purchase on this service.

All connecting services are due to arrive in New Street by 08:20 at latest meaning that Service 10 will be available for these students. Should this bus be overcrowded, or if connecting services are running late, Diamond will run an additional service out to school. We will continue to monitor these services with the school to ensure that they are working correctly for students and parents.

New timings are listed below:
